WORLD'S GREAT MEN FOUND AMONG LOWLY

STRENGTH DOES NOT ALWAYS
MEAN VICTORY SAYS REV.
PARISSE IN SERMON.

CHRIST VS. CAESAR

Rejected Savior Won Greatest Tri-
umph of the Ages While Cae-
sar's Name Alone Is
Remembered.

Over six hundred persons crowded
the auditorium of the Presbyterian
church Sunday morning to hear an
inspiring sermon by the Rev. George
Edwin Parisse. His text was Ecceles-
iastes 9:11: "I returned and saw under
the sun that the race is not to the
swift, nor the battle to the strong,"
and he spoke in part as follows:

"For our theme let us consider
"The Race is Not to the Swift."
"Those who have the fairest
chances do not have the happiest suc-
cesses. Nor indeed do those who
lend themselves most strongly to their
ends, always reach that end. Men
might be swift, but they will not al-
ways win the race. Armies might be
strong, but strong armies do not al-
ways conquer."

"Turn where one would in human
life, inculcating powers abound,
powers balancing, adjusting, compen-
sating human achievements.

"In our school days each of us had
our hero. We believe certain of our
classmates were to become famous
during their lives. Yet, now as we
look back upon those golden days of
childhood, we know from our mature
lives, that years have passed over us.
Yes, amidst the dust of time, of
those trailing years, our hero has been
lost. That clever brilliant leader of
our classroom days has disappeared."

"However, we do recall that quiet,
frail, sort of dull, perhaps freckled
face fellow—the one all of us used to
look upon and cease and jest. We
think of him as a cheer force of will
he has bravely lifted himself to the top
of the ladder, the crown of success.

"Good books are our best friends.
To write a great book you and I
would think a man must have leisure,
large libraries, health and strength.
But then when we are face to face
with the facts, we too must return
convinced that there is a power in
this world that works counter to our
expectations."

"In your illud and odyssey you are
held with a peerless poetical accu-
racy—but then Homer was a blind
man.

"Operates, the truth seeker, the re-
deemer or philosophy was so poor
that his parents could not pay the re-
quired fees for his instruction.
"Perhaps you prefer comparison to
some book. I may know of a book
which is your Bible. Amos, the gifted
prophet—he was a herdsman; John,
the beloved disciple, whose great and
good book, I dare say has been of
more comfort to Christians than any
other book in the Bible—John was a
fisherman."

"Review literature—Bunyan a
prisoner, John Milton, England's sec-
ond poet, heart broken and blind,
Robert Louis Stevenson an invalid,
where is your leisure, where is your
libraries, where is your comfortable
atmosphere of cultured ease?"

"Let us apply our text to the seek-
ers of happiness. We do not find
those who have the most to make
them happy, to be the happiest. You
will find that men who are burdened
and battling with a thousand cares
and ills to have more laughter and
sorrow than those who seem not to
have a worry or a care. How idle
are our words. We talk about the
eager race for riches. But after all
at the heart of it, we find the race a
struggle for happiness. The battle of
success—why, it is but a battle to be
happy."

"Look into the faces of men, women,
and children as we pass, yea their
countenance tells us more plainly
than words: "The race is not to the
swift, nor the battle to the strong."
Tiberius Caesar, emperor of Pales-
tine at the birth of Jesus Christ, was
the most powerful living man. Ruler
of all the known world, he was bound
to his power, or wealth. His home
a beautiful palace, no check to his
pleasure. Would not you and I
think that to be happiness indeed?
But Tiberius Caesar was the most
gloomy of mankind.

"Jesus Christ our Lord and Saviour,
without a home, no where to lay his
head, despised, rejected, spat upon,
crucified. But catch the warmth of
his life as he says: "My Peace give I
unto you, not as the world giveth."
Who, my hearers, has won the race?
A mighty Caesar, with legions at his
command or the rejected Christ.
There is a great divine creative eter-
nal righteousness and merciful hand
that shapes our ends. Every man's
life is a plan of God, and He would
have our lives perfected in the bounty
of Christ's example. If we love and
serve Him, if we gratefully acknowl-
edge Him, to be the author and
creator of every good gift, and if we
seek after His kingdom and His
righteousness, if we are Christians in
more than name, we shall find in our
texts the joys of eternity."

"Pleasures may bloom and fade,
speculations may shift and change,
riches may come and go, the body
may sicken and strengthen, the
favour of men may be conferred and
withdrawn.

"But if we make it our chief end,
to know God and be faithful to Him
in our duty, whatever our duty may
be, when the race has been finished,
when the battle has been fought, the
joys of eternity with Christ, shall be
ours."

"He that is faithful in a very little
is also faithful in much." A little
gift in the hand of a great God, may
work for mighty issues in our lives,
than we may dare to dream."

HOW FRENCH PEOPLE CURE STOMACH TROUBLE

A household remedy of the French
peasantry, consisting of pure vegeta-
ble oil, and said to possess wonder-
ful merit in the treatment of stom-
ach, liver and intestinal troubles, has
been introduced in this country by
George H. Mayr, who for twenty years
has been one of the leading down town
druggists of Chicago and who himself
was cured by its use. So quick and
effective is its action that a single
dose is usually enough to bring pro-
nounced relief in the most stubborn
cases, and many people who have
tried it declare they never heard of
anything to produce such remarkable
results in so short a time. It is known
as Mayr's Wonderful Stomach Remedy
and can now be had at almost any
drug store. It is now sold here by J.
P. Baker & Son.

SCHOLARS PURCHASE OVER TWO THOUSAND PACKAGES OF SEEDS

Committee on Distribution Have Two
More Schools to Visit This Week
—Interest Is High.

During the past week, the commit-
tee on the distribution of the six
vegetable and six flower seed pack-
ages, have met with success. Over
2,100 packages were disposed of at
the Adams, Grant, Lincoln, Webster,
Douglas, Washington, Garfield, and
Jefferson schools, as a per capita pack-
age. This committee will visit the
St. Patrick's convent and Jackson
schools this week.

The largest sale at any one school
was realized at the Jefferson institu-
tion on Friday afternoon, last, when
413 packages of the seed were sold.
It is expected that a record sale will
be made before all of the schools are
covered.

The seeds are sold in two lots.
Twelve packages constitute a set, six
of which are of the vegetable variety,
and six the flower seeds. The boys
and girls who have the flower seeds
should be especially careful when
planting them. The vegetable vari-
eties should be planted as early as
possible, but caution should be taken
in planting the flower seeds until
after the fruit trees are in bloom. A
successful growth of beautiful flowers
cannot be realized unless these
orders from the committee are lived up
to.

The scheme of planting the various
seeds, coupled with the "Fly Swat-
ter" movement, are keeping the
youths busy after school, and even
early in the morning. If the work is
continued with as much interest as it
has been, Janesville should be one of
the prettiest cities in the state this
summer.

DELIVERS MEMORIAL ADDRESS FOR MOOSE

Rev. Parisse Gives Address at Special
Services of Local Lodge at Y.
M. C. A. on Sunday.

On Sunday afternoon the local order
of Moose held their annual memorial.
The members of the organization as-
sembled at the hall and marched to
the Y. M. C. A., where the services
were held.

The address was given by Rev.
George Edwin Parisse, pastor of the
Presbyterian church. Commenting up-
on the splendid spirit of the organi-
zation Rev. Parisse urged its mem-
bers to strive to be true to the three
essential principles which go to make
any life a credit. Purity, Aid and
Progress are the essentials to the no-
bility of character. In choosing an
ideal we must be careful to select an
ideal that is just beyond our reach.
We must be just, however, that in
our choosing, lest we adopt an ideal
which is void of purity.

"The ideal of Purity, which has
proven the uplift of humanity," he
said, "is the ideal of Christ. Jesus.
Strive to be pure as He was pure.
Having the Christ in your life you will
be able to give encouraging and up-
lifting aid to those who are in need
of it. We must make progress. To stand
still is to die. In order to reach our
ideal we must progress. So many
think that the orders such as I am
addressing to do in the fact of their
organization, a reflection of the
church is not doing its duty to the
world."

"I disagree with such a statement,
but at the same time would remind
you: That while in the organization
the Loyalty Order of Moose does strive
to uplift its members—you can not
without the aid of Christ perfect
ponents of His religion. Notation
how great, good and noble are the
teachings of your order, in no way
can your order, or in fact any order,
take the place of the church.

"When you cease to have of
souls as the prime business of your
order, then you cease as an order,
and become a church.
"It is fitting, it is right, it is good,
for you to gather in this memorial to
your honored dead. Go to the fact
that you shall some day meet face to
face with your dead who die in
Christ, is the faith of the church.
"Be true to your order, be loyal to
your brother, be pure in your life,
give aid to the needy, then whatever
progress you make, it will be viewed
by young friends in the true character
of your life. Perseverance is the
cap stone of character."

MRS. EDW. RATHERAM IS CALLED BY DEATH

Pioneer Resident of Janesville, Passes
Away This Afternoon Following
Lingering Illness.

Mrs. Edward Ratheram, one of the
pioneer residents of Janesville, passed
away at two-thirty o'clock this after-
noon at her home, 170 Union street,
following a lingering illness of
which she has suffered for the past
six months. She was 78 years of
age. During her long residence in
this city Mrs. Ratheram enjoyed the
company and tender regard of a large
circle of friends who will hear of her
death with genuine sorrow.

Besides her husband she is sur-
vived by four daughters, Mrs. T. M.
B. Gunn of the Town of Rock; Mrs.
E. W. Harvey of Chicago; Mrs. R. W.
Edden and Miss Daisy C. Ratheram
of this city. Funeral arrangements
will be announced later.

Mrs. Patrick Sennett.
Mrs. Patrick Sennett passed away
this morning at eleven o'clock at the
home of her daughter, Mrs. William
Russell, 414 Race street. She was
78 years of age. She leaves three
daughters, Mrs. William Russell, Mrs.
Lewis Gilbertson, both of this city,
and Mrs. James Winters of Oak-
land, Cal. A son, Andrew Sennett, re-
sided in Detroit.

Announcement of the funeral will
be made later.

ALPHONSE BROCKETT BREAKS
ARM CRANKING AUTOMOBILE.

Alphonse Brockett had the upper
bone in his right arm broken while
cranking his automobile at Afton Sat-
urday. The machine backfired and
the crank struck Mr. Brockett on the
arm with enough force to shatter the
bone.

Seem to Have Defied Ill Luck.
The superstition concerning the ill
luck of the mystic number 13 is said
to be wanting. It may be pointed out
that the original colonies were 13
in number and that up to going to
press they have not met with any
special misfortune.

T. RAFTER RECUED IN AUTO ACCIDENT BY WIFE'S BRAVERY

Broken Steering Wheel Ditches Car Throwing Mrs. Rafter to Roadside-Injured Husband.

Thomas Rafter, residing at 425 Lincoln street, received severe injuries and his wife many bruises when a light touring car in which they were coming from Delavan turned turtle on the road to Janesville about seven miles out of Delavan shortly before twelve o'clock last night.

It was only through the bravery and courage of Mrs. Rafter that her husband was not killed, for he was pinned under the machine powerless to move and probably would have been strangled to death, had not Mrs. Rafter lifted the machine and helped him worm his way out. She was thrown over the wheel and windshield to the side of the road, and forgot her injuries in the successful effort to save her husband.

The accident was caused by the breaking of the steering gear spring making the machine uncontrollable and before Mr. Rafter could apply the brakes the auto plunged over into the ditch, throwing Mrs. Rafter to the side and pinning her husband under the steering wheel.

The car was badly wrecked and a telephone message brought a machine from a Janesville garage to take Mr. and Mrs. Rafter to Janesville. A doctor was called and it was found that Rafter was suffering from a concussion of the brain, many painful bruises and a wrenched shoulder. Mrs. Rafter although badly shaken, refused to admit any serious injuries. The car was left by the roadside and will be brought to Janesville this afternoon or tomorrow.

WOUNDED BY BULLET FIRED ACROSS RIVER

M. Hanson Shot in Arm While Standing on River Bank Sunday Afternoon—Make Inquiry.

Through the carelessness of three young men, who were shooting with a twenty-two calibre repeating rifle, M. Hanson received a serious gun wound, Sunday afternoon, while standing on the river bank north of the Crook brewery. Hanson, together with Edward Arthur, were standing in plain view from across the river, and the three youths were shooting apparently at objects in the stream. One of the bullets struck a branch above Hanson's head and despite his shouting a warning to them, they fired again. This time the bullet struck Hanson in the right arm, just above the elbow. The lead penetrated the flesh to the bone, which was badly injured and caused great pain. It was fortunate that a more serious injury had not occurred, for when struck, Hanson happened to have his arm across his body, which probably saved his life. An inquiry is being made on the identity of the young men who were guilty of firing the shot.

BESSIE BUELL WILL BE THE MAY QUEEN

The Misses Marion Matheson, Gladys Franklin, Mary Butters and Dorothy MacLain Will Attend Her.

At a special meeting of the senior class held on Friday of last week, Bessie Buell, was elected to the high honor of May Queen at the coming pageant in June. Her attendants will be the Misses Marion Matheson, Gladys Franklin, Mary Butters and Dorothy MacLain.

Miss Alice Abell, physical training instructor at the high school, will take complete charge of the pageant, which will include the May Queen procession, May Pole dance, and other fantastic dances. Her intentions are to have a pretty lot of dances, and to have them ably presented. A large number of girls are to take part, and if weather conditions are good, a record-breaking crowd will be expected.

LOCAL ADVERTISING MUCH COMPLIMENTED

Local Picture Houses' High Class Advertising in Gazette Receives Mention in Moving Picture World.

The Moving Picture World, one of the leading motion picture publications in their late issue, give special mention to the advertising copy which appears in the Daily Gazette for the Daniels-Janesville company, proprietors of the Lyric and Majestic theatres. The Lyric and Majestic theatres of Janesville, Wisconsin, have been doing some of the nicest newspaper advertising seen in a long time. A fine advertisement use of white space make a two-column, five-inch advertisement stand out. Two things remembered are: If it isn't worth a dime, it isn't worth your time. And a playmasterpiece every Wednesday.

The copy for the Lyric-Majestic theatres is prepared and placed by Earl T. Brown, manager, and needs but to be seen to appreciate the careful thought and hard work Mr. Brown put into his newspaper advertising copy.

SPEAKING CONTEST WITH BELOIT COMES ON MAY THE SIXTH

Four Competitors Are Entered From Each School in Oratorical and Declamatory Events.

The oratorical and declamatory contests with the Beloit high school in the Janesville high school auditorium on Wednesday evening, May 6, will be the first of a series of events.

Four contestants will be entered from each school in each event, and not two as was the case last year.

In the oratorical contest, Stanley Horwood, by winning the Alumni medal, is the first speaker from the local school to be entered.

Allen, by winning second place in the same event, will also be among the speakers. Many believed that Dearborn, through winning the Lovejoy medal would be the right contestant in the meet with Beloit, but such is not the case. One of the original reasons for adopting the new scheme was to give the local school a chance to win.

In the declamatory event, Evelyn Welsh, winner of the medal Friday night will enter as first speaker from the local school, and Miss Ruth Dearborn will be second entry.

Beloit will be represented by two orators and two declamatory speakers. The new plan of entering first and second place winners, has met with the approval of both schools, and on May sixth, the new scheme will be tried for the first time.

In reviving briefly the contest held at Beloit last year, it will be remembered that Allen Dearborn lost last year's contest to Josephine Reed, by a very small percentage.

Miss Reed later lost at Whitewater in the district race. Mr. Moore also lost at Whitewater last year, after speaking over the contest.

The intense rivalry between Beloit and Janesville is far from having been blown over, because of the recent tournament, and there is no doubt that the contest of May sixth will be well represented in Janesville on the night of the contests.

DISPUTE OVER WAR SETTLED IN COURT

Quartet Taken Unaware, by Officer Gower, Who Declares a Truce. —Busy Morning in Court.

Disputing the "watchful waiting" policy of President Wilson, the Menckman situation and other governmental problems, ended in four men being arraigned in the municipal court this morning on the charges of drunkenness.

Thomas Flood, George Flood, Clayton Bradley and Edward Goldsmith Saturday afternoon started to settle trouble in the alley between Franklin and Jackson streets, near the city hall, while Police Officer Gower was on duty.

Goldsmith how the American marines were going to lick the "greasers," his brother and Bradley urging them on, and given instructions for different maneuvers. Officer Gower broke in on the scene and called a truce while he escorted them for half a block to the city hall. This morning Judge Maxfield was mediator to the conflict, and all four pleaded guilty to the charge of drunkenness.

Thomas Flood was given ten days flat sentence and warning that a repeated offense would mean a heavy term. Judge Maxfield, however, told them, were instructed to take the pledge for one year, and on their promise to attend church regularly Judge Maxfield suspended sentence and held their cases over. Given Nine Months.

William "Butch" Mosher was given nine months' sentence on his plea of guilty to second offense drunkenness. Mosher waived his examination and pleaded guilty to the charge. When asked why he became intoxicated at such regular periods Mosher declared that the liquor had a tendency to ease his rheumatism and was almost a cure for it. Judge Maxfield, however, told him that if he came into court again a state's prison term would be the "cure" prescribed and that he would have a nine month's start to sober up and keep at work under the guidance of Sheriff Whipple.

Pleads Not Guilty.
Robert Welsh, charged with second offense drunkenness, entered a plea of not guilty and the court set his examination for May 4th at four o'clock. Being unable to furnish the three hundred bail, he was committed to the county jail until his examination.

Welsh was arrested last Saturday night on a charge of street drunkenness. James Ryan and Charles Preston received five day sentences in default of fines of three dollars and costs, pleading guilty to being drunk and disorderly.

James Ryan was in a fight with company and Preston was arrested on Pleasant street Sunday night.

Alleged Wife-Beater.
James Grogan, residing on South Academy street, plead not guilty to the charge of assault and battery made by his wife, and Judge Maxfield set his examination on the docket for May 4th. Grogan, within several days, was released from serving a committal term for drunkenness.

Saturday night, it is alleged, threw a fish globe and a statue at members of his family during a drunken rage.

ITALIANS IN COURT; COMRADES ON STRIKE

Section Force Band Together to Help Countrymen Who Were "Pinched" for Hunting Rabbits.

This morning the forty or fifty Italians employed on a section gang by the Chicago and Northwestern railroad and stationed at South Janesville, went on a strike, walking out and no amount of entreaties, begging and threatening could stop them. The reason for the walkout was that three members of their clan had been charged with the killing of a strike and a toothsome article. It was useless to attempt to explain that they could not hunt without a license and on the plea of the fact that they were not hunters, the men in a hurry this afternoon. Complaint had been made that members of the section gang were shooting rabbits and even some birds for eating purposes on Sunday.

Adjourn Civil Cases.
The case of the City vs Recorder Printing company, scheduled this morning, was adjourned by Attorney George G. Sutherland for the defendants, for three weeks. Judge Maxfield adjourned the case of John Maxwell for two weeks, for the fact that he was in the city during the past two weeks. Maxwell was charged with drunkenness.

George Cotton laid Sam Langford out the mat with a punch in about a short time ago and throughout the

rest of the fight he most bitterly regretted having done so. Sam certainly gave George a horrible beating to get even.

Johnny Kilbane has been champ of the feather for two years now and his wife till lately had never seen

him fight. Mrs. Kilbane had always declared that some day she was going to be present while her husband was trouncing an opponent. Moreover, she wanted to be assured that he is as good as they say he is. The other day the Missus got her chance. When Johnny fought Bobby Reynolds at Windsor, Canada, last Wednesday, Mrs. Kilbane was there and saw the whole fight. And she liked to watch Johnny so well that she says she's going to go to all the fights she can from now on.

They have a new hunch for giving decisions out in Los Angeles and the thing is being discussed quite a bit at present. It is argued out there that in the twenty-round fight the fans frequently forget the aspect of the early rounds when the decision is given out. Often they will hoot a decision just because the loser has managed to make a good showing in the late rounds. The idea that is being favored on the coast recommends that at the end of each round the referee indicate which of the fighters gets the shade or the whole round and that's why this new scheme of refereeing is being favored.

If the Federals are really anxious to build up a major league it is strange that they should sign any of the St. Louis Browns.

AMERICA CUP RACE COSTS HALF MILLION

Two American Yachtsmen to Spend Fortune on International Regatta Off Sandy Hook.

New York, April 27.—Some idea of the amount of money involved in the defense of the America's Cup in the coming international yacht regatta off Sandy Hook in September may be gained from the assertion recently made by an authority who stated that twenty-two American yachtsmen will spend more than half a million dollars this summer in defending the trophy. In addition to the expense of preparing for the trial races it will cost \$10,000 or \$15,000 more to bring the defender through the cup races.

Alexander Smith Cochran of New York will be under the heaviest outlay, since as sole owner it will require close to \$200,000 to pay for the building, fitting out and sailing the Vanitie, now rapidly nearing completion at Neponset. Six present and past flag officers of the New York Yacht club have given an unlimited order to the designer, builder and manager of the Resolute, the Bristol production, and will probably be called upon to contribute between \$35,000 and \$40,000 each by the time the season is finished. The syndicate is composed of Vice Commodore George F. Baker, Jr., Rear Admiral J. P. Morgan, former Commodore Frederick G. Bourne, Cornelius Vanderbilt, Arthur Curtis James and former Vice-Commodore Henry Walden. It is estimated that \$200,000 will be required to build, outfit and campaign the Resolute during June, July and August.

Of the fifteen yachtsmen who combined to build the Defiance at Bath at an estimated expense of \$100,000 eight are from Boston, six from New York and one from Philadelphia. The syndicate is composed of F. C. Fletcher, E. S. Webster, Elliot Wadsworth, Charles Hayden, F. B. Peabody, J. C. Cobb, Oliver Ames and Henry Taggard of Boston; George M. Pynchon, George Lauder, George D. Barron, James B. Foord, Tuxbury Hall and Thomas C. Dunham of New York; and E. Walter Clark of Philadelphia.

The exact sums paid to the Herschhoff company for the last five cup yachts, including the Constitution, have never been revealed, but other builders believe they know them approximately. From such data it is estimated that the contract for the Resolute with two masts, two or three sets of sails, minor spars, and rigging complete, called for close to \$100,000. It is thought that \$75,000 will be necessary for her upkeep during the preliminary season from May 1 to Aug. 22. The contract price for the Vanitie is placed at about \$100,000 and it is expected that with her professional crew and large tender, Mr. Cochran will have spent another \$100,000 by the time that the committee on challenge of the New York Yacht club renders its decision as to which yacht shall be intrusted the defense of the silver tankard.

As the Defiance is of composite build, with steel frames and a double wooden skin, it is estimated that her building cost will be considerably less than either of the two bronze yachts, probably in the neighborhood of \$40,000 just before launching. Her masts and spars will cost \$10,000, her sails \$10,000, blocks \$3,000 and rigging \$1,000, with \$5,000 more for incidentals, or a total cost of \$70,000. As the yachts of several of the syndicate are to be used as tenders, the cost of running the Defiance for the three months is placed at \$30,000, or \$100,000 for the season.

With a challenger also of composite construction it is expected that the fourth venture of Sir Thomas Lipton will be far less expensive than his three previous cup hunts, probably under \$150,000, compared with a third of a million spent on each of the other challenges.

For the first time since the Vigilant vanquished the Valkyrie in 1893, the cup defense yachts will have a fair market value after the 1914 regatta is decided. They are not expected to deteriorate more than 40 per cent compared with a loss of 98 per cent which the owners of the Resolute, the last cup defender, were forced to bear. Her building cost being nearly \$300,000 and her scrap value \$6,000. Thus the value and availability of this year's cup yachts for future work is regarded as one of the most encouraging features of the new rule under which they have been built.

DISCUSSES FAILURE OF NEW TARIFF BILL

Winfield Jones Says Measure Falls to Work as It Was Intended.

(By Winfield Jones.)
Washington, April 27.—Any newspaper reader who observes events as printed in the press from day to day now believes that the democratic tariff law is a lamentable failure.

Even the democrats acknowledge that the tariff has not worked as President Wilson and Secretary Bryan said it would to increase prosperity and reduce the high cost of living.

Now has the democratic tariff affected the labor, even in one state? Eighty-five thousand steel and iron workers and at least 50,000 laborers employed in the iron and steel plants of Allegheny county, Pa., are working from half to two-thirds time.

In addition to this curtailment of earnings power, laborers to the number of 20,000 or more have been dismissed or laid off within the last year. In contrast with this it is stated, on the best of authority, that a year ago under a republican administration the mills and furnaces of Pittsburgh were working with their full complement of men on full time, and the daily payroll was \$1,000,000. This is now reduced to anywhere from \$500,000 to \$650,000 per diem, the amount depending on the incoming orders. These latter, it is stated by those in a position to know, are not what they should be, either in number or amount, and are fully one-third less than the aggregate of a year ago.

The heaviest burden falls on the laborers, as these have been the ones laid off, where such has been necessary in the mills.

Of 8,000 men employed by the Westinghouse Electric Manufacturing Co. at East Pittsburgh, it was explained by a representative of the company that while none had been laid off, the hours had been reduced nearly two hours a day in respect to the night force. This force constitutes about one-third of the whole force of operatives. The change was made two months ago.

Six months of the democratic tariff have more than justified every prediction made by republicans. President Wilson's idea that it would be a good plan to put the "wits of the American manufacturer against the world" is shown to be a dismal failure. In the last six months the treasury has lost \$25,000,000 in customs revenue.

In the six months the country has

lost in export and gained in imports. We have imported \$54,000,000 less of raw materials or materials for further manufacture than in the corresponding five months of the previous year. In the same period our exports of manufactured or partly manufactured articles fell off by \$33,000,000—a net loss to this country of \$87,000,000 in our manufacturing department. This net loss falls upon workers in American mills and factories. Our "wits" have not met those abroad. The showing for the month of March is the worst of all, and there is no prospect of a change for the better.

The government is \$30,000,000 behind in its balance sheet for the fiscal year to date. Appropriations by congress are on a higher scale than ever, while the prosperity of the country is assailed on every side. That conditions are no worse is due to the fact that our manufacturers have been doing their best to meet conditions. They have seen their profits cut down or vanish, but they have kept on because they did not want to see their organization broken up. Many thousands of employes have been discharged.

Rule of the "scholar in politics" advised by the chautauque demagogue at the helm of the state department coupled with the inexperience and blunders of the democratic majority in congress, have brought the country to a most dismal industrial and business condition.

On top of this misgovernment is the fearful Mexican muddle, into which the American people have been hastened against their will by the academic theorist in the White House and the blundering tyro in the state department, who has not the slightest conception of diplomacy or even of common sense in governmental affairs.

Remarkable, indeed.

CLAIMS TRAINED NURSE NECESSARY IN SCHOOLS FOR GUARDING HEALTH

[BY ASSOCIATED PRESS.]
St. Louis, Mo., April 27.—A nurse should be a member of the faculty in every school, according to Miss Helen W. Kelly, superintendent of the School Nurses of Chicago, who spoke before the National Organization for Public Health Nursing here today.
Such rapid strides were being made, she said, that since 1901, when New York was the first city to employ a school nurse, there are now over 500 cities and towns which have established school nursing.
"The ideal condition," according to Miss Kelly, "would be to have a nurse in each school as a member of the faculty charged with the responsibility for the health of teachers and pupils. She would be the instructor of hygiene, physiology, first aid and the elements of home nursing."

MAN RECOVERS INJURY WITH BULLET LODGED IN A HEART CHAMBER

[SPECIAL TO THE GAZETTE.]
Vienna, April 27.—Alive and well with a bullet in his heart, is the report made of an unusual if not unprecedented case in medical annals, by Dr. Finsterer to the Viennese Society of Physicians and Surgeons. Dr. Finsterer was called to attend a young man brought to an emergency hospital. He had attempted suicide by shooting himself. He was unconscious but still alive. By means of the X-ray it was seen that the bullet was actually in the heart. It was loose in one of the heart chambers and with every movement of the organ the bullet moved about. After consultation with Prof. Hochreiter, the famous surgeon, it was decided to sew up the hole in the heart where the bullet entered and that without attempting to remove the bullet. This was done. After two weeks it was certain that the young man would get well. Four weeks later another X-ray examination showed the bullet had been "healed in" near the lower edge of the heart and gave the patient little or no trouble.

BETTER BABIES

The cascade for babies has spread from coast to coast, and taken firm hold of American Mothers. Few women realize how much the ill health of the mother influences the unborn child, both physically and mentally. Women who suffer from nervousness, pains, backache, nervousness, mental depression, headaches, etc., should rely on Lydia E. "ON TO MEXICO CITY" NOW THE CRY; MANY DIFFICULTIES IN WAY

Scenes in Mexico City. Top, cathedral and park in heart of the city. Bottom, Calle Cinco de Mayo, Mexico City's Wall street.

"On to Mexico City" is now the cry in Washington as well as from the American forces at Vera Cruz. It is realized that war is on in real earnest and that the quickest way to end it is to take possession of the Mexican capital. Troops would go to Mexico City from Vera Cruz, a distance of nearly 300 miles. If the two railroads can be kept intact the journey can be made in a brief time; but if the railroads are destroyed it will take months to make the journey. The accompanying pictures show two of the most famous spots in Mexico City.

FACULTY COMMITTEE DENIES APPEAL FROM STUDENT COURT

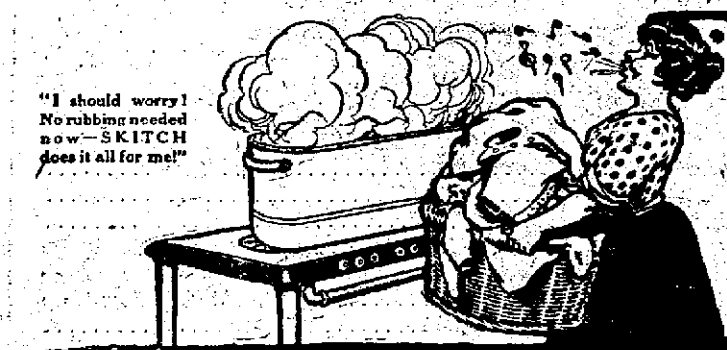

[SPECIAL TO THE GAZETTE.]
Madison, Wis., April 27.—The appeal from the student court decision which punished three sophomore class officials for falsification on the witness stand and misuse of class funds by disfranchisement from student offices for the rest of their university course, was refused by the faculty committee, which held that the student court is supreme. The appeal was taken by Chief Justice R. J. Brewer and Justice C. H. Getts, who demurred on the ground the penalty was too slight. In their dissenting opinion these justices said the plea of "precedent" set up in defense of the custom of retaining profits from class functions is no excuse, and that in addition to disfranchisement the defendants should be suspended for the remainder of the year. A more efficient accounting system is advised. The men ordered disfranchised are, Milton Pindorf and Arnold Jackson, Madison, and Don L. May, Aurora. If George Lewis, Madison, was acquitted, but the dissenting justices held this his knowledge of the wrongful use of class funds, although he did not handle the money, warranted some punishment, and they recommended a brief suspension. The faculty committee's refusal to receive the appeal settles the case, but student legislation to guard against future cases of the same kind will follow.

MADISON SALOON KEEPERS CAUGHT VIOLATING LAW

[SPECIAL TO THE GAZETTE.]
Madison, Wis., April 27.—Convicted of selling liquor to minors, Charles S. Allen and William P. Blankenheim, saloonkeepers, had their licenses suspended by Mayor A. Kayser, and the common council will act upon revocation proceedings. Charles Kirch, proprietor of the Capital house bar, was arrested for failing to comply with the ordinance for the removal of screens during the hours saloons are closed.

Happy, Happy Wash Day! SKITCH Made It So

No More Rubbing Clothes on a Washboard—No More Making Your Hands Tender And Sore in Hot Suds—Use SKITCH.

Who'd be so foolish as to rub clothes on a washboard now when SKITCH will clean your clothes better and quicker without rubbing? SKITCH is a wonder! Use three teaspoons of SKITCH to a boilerful of clothes and it just skitches the dirt out of the clothes while you sit and rest or do up your other work. Mrs. Alice Jure of 540 Stowell Ave., Milwaukee, says: "My clothes are all out on the line now by 9 o'clock. It used to be 12 and often later before I was done. And I would be so worn out from bending over a washboard. SKITCH is a perfect godsend to women."

Don't worry for a minute that SKITCH can hurt your clothes. SKITCH positively is guaranteed not to injure the finest fabric. It's so harmless you can even eat a handful of it without hurt. Get a 10 cent package of SKITCH from your grocer and try it—seven big washings in every package—just a little over a cent to save the hard work of a wash day—less than the soap used in the rubbing would cost. If your grocer won't supply you with SKITCH send his name to me and I'll send you a free sample. Hans Fichtenberg, Milwaukee, Wis.

INVERTED PRIDE.

WAS there ever a human being who was completely free from pride? I doubt it.

If you find someone who isn't proud of the things people usually take pride in, he is probably proud of the opposite.

And this inverted pride is often more intense than the ordinary variety.

A friend of mine has no patience whatever with the people who are always boasting about their aristocratic ancestors. "I frankly acknowledge that my ancestors were men of the soil," she likes to say. "There wasn't an aristocrat among them."

I know she thinks she is splendidly free from pride on the subject of ancestry. But she isn't. For she boasts of her plebeian origin just as frequently and with just as much pride as her aristocratic neighbors, and rather more aggressively than they.

Again, I know a woman who looks scornfully down upon the kind of pride that exults in wealthy friends. To-day is to her one of the seven deadly sins. She would scorn to make friends with anyone because she is wealthy, and so she goes to the opposite extreme and is actually rude and disagreeable when she is brought into contact with any sort of wealth.

And of course she is proud as Punch of her rudeness. Incidentally she is proving just what she denies, namely, that wealth is of great consequence to her. If it were not, why should she set apart these people from the rest of her acquaintance by her manner of treating them? If wealth did not really matter to her she would reject or accept them on their own merit just as she does her other friends.

Another form of inverted pride is that of the person who hates flattery and rushes to the opposite extreme of unnecessary making rude and uncalled for comments on his friends' appearance, clothes, conduct, etc. Needless to say, he is as proud of his rudeness as any flatterer ever could be of his diplomacy. When he says "I never flatter," pride sticks out all over him.

I believe it was Plato to whom Diogenes boasted that he was absolutely free from any kind of pride. "No," answered Plato, "your proud of your own humility."

We all seem to need to believe ourselves superior in some direction. Pride of some sort or another is as necessary to our self-respect as air to our lungs. Let it, then, be of the right sort. Your conduct is influenced by your pride. Be careful what you are proud of; be sure it is something worth being proud of, and not a mere rebound from something unworthy to something else equally unworthy.

Heart and Home Problems

Dear Mrs. Thompson: I am a girl of seventeen.

(1) I would like to become a nurse.

(2) I think this a good profession?

(3) It is very difficult?

(4) Must you know Latin?

(5) I have many pupils on my forehead.

(6) I have used different kinds of ointments, but they do not help.

(7) I wear my hair over my forehead.

(8) You think this causes it?

(9) I eat nourishing food and keep it myself.

(10) I clean inside and outside. What do you think is the cause?

(11) How can a girl become more popular?

(12) Why is it that boys don't like girls who act mushy? I don't mean hugging and kissing, but little incidents that attract their attention?

(13) It is not an easy profession to be a good nurse, but is one of the noblest professions in the world.

(14) The better education you have the better nurse you will be. It would be better to finish high school, by that time you will be in better condition physically to begin studying nursing.

(15) It is advisable to know enough Latin to understand the doctors' prescriptions.

(16) Girls of your age are often troubled with pimples on the forehead. Take very good care of your face, especially at certain periods, and keep your bowels open. Use a peroxide on the pimples two or three times a day might do some good.

(17) Some girls simply have not the power to become very popular. They are nice, modest girls, and yet they do not seem to attract much such as I can only say. Keep your self-respect and you will at least have something worth while.

(18) Because they think mushy girls are silly, and they're quite sure that these girls are just as mushy as other fellows. A man may encourage a girl to be mushy, but at the same time he is losing respect for her and

some day will be sure to "shake" her for a girl who has respected herself too much to be mushy with the boys.

Dear Mrs. Thompson: We are two boys, fifteen years old.

(1) Is it right for us to go out walking on afternoons with girls one year our junior?

(2) We care for them very much, but they don't believe it. How can we convince them that we do?

(3) One of the girls corresponds with a boy in another city. What shall I do to make her stop it?

(4) Two boys flirt with one of the girls. How can we make them stop it?

(5) K. R. U. AND F. L. E.

(1) I see no harm in going out walking with your girl friends, providing there are no objections on the part of your parents.

(2) Of course you like them; and they like you, or you would not care to be friends. You may be sure that the girls believe you care for them or they would not stay friends.

(3) Now, why should you try to make her stop it, my boy? She has just as much right to have another boy friend as you have to have another girl friend.

(4) Boys don't flirt with a girl unless she helps them along. Of course, if you're strong enough you can lick these two boys; but that wouldn't keep the girl from flirting with other boys. If the girl complains to you, tell her not to notice either and that will keep them from annoying her quicker than anything else.

Dear Mrs. Thompson: (1) Will (2) solution remove superfluous hair for good, or will it grow on again? If not, is there any sure way to do it?

(2) What should a boy say in asking a girl to dance with him?

(1) I cannot recommend any of the advertised solutions, as I know nothing about them. However, nothing will take out superfluous hair permanently. Even the electric needle has failed in cases that I know of, and this has always been considered the sure remedy.

(2) "Miss Brown, may I have the pleasure of this dance with you?"

Women Worth While

MRS. JOHN LIND. Mrs. Lind accompanied her husband on his recent diplomatic mission into that country, and with him spent several months in the city, which is now a center of interest to the world. Before her marriage Mrs. Lind was

Miss Alice Shepherd. She comes of old English stock, her ancestors having come to this country in the days of the Mayflower. The Rev. Thomas Poletah Shepherd, one of her forefathers, was many generations ago one of the pastors in the early American colony. Another, but in a different boat that ever ploughed the waves of Lake Erie.

Mrs. Lind herself was born in Wisconsin. The spirit of the west permeates her tastes in large degree. She loves the freedom of outdoor life, delights in fine horses, and is a good rider and swimmer. In talking with Mrs. Lind one realizes that it is probably to her athletic tendencies that she owes her clear complexion and her splendid health. She is the mother of two boys and two girls, but has retained her youthfulness to a remarkable degree.

Mrs. Lind says that she has no hobbies, unless they are her husband and children. She loves politics, but she has never had a desire to take active part. She says she may be old-fashioned, but that she prefers being behind the throne than on it. When her husband was governor of Minnesota she was perhaps more interested in legislation and in problems of state and municipal government than in the discharge of the social duties that usually constitute a wife's part in the career of a husband who is in public life. Mrs. Lind has always been interested too, in sociological problems, and for a long time she worked as a friendly visitor for the Associated Charities in her town.

In manner, Mrs. Lind is gentle, kind and motherly. She has had a long experience in public life and she is accomplished both in music and in art.

Mrs. Lind declines to discuss her experiences in Mexico, but she waxed enthusiastic over the beauty of Washington during a spring season. She and her husband came to the capital from Mexico when the gayeties of the season were about over, and when Mrs. Wilson's absence at White Sulphur Springs was a cause for dullness in official social circles. The Linds, however, were lunched and dined continually during their stay at the capital, spent some time sight-seeing after the manner of the everyday tourist, and seemed to enjoy their visit to Washington immensely.

HERE'S NEW HEAD OF NATIONAL W. C. T. U.

Miss Anna Gordon.

By the recent death of Mrs. Lillian M. N. Stevens, who for sixteen years was president of the National Woman's Christian Temperance Union, Miss Anna Gordon of Evanston, Ill., automatically became the head of the movement. Miss Gordon was born in Boston, July 21, 1863. She was private secretary to the late Frances E. Willard for twenty-one years. She is the author of a number of books.

You can sell your house or turn it into a store through a want ad.

Did You Read This Yesterday?

We described these six conveniences that have made 700,000 women use the

HOOSIER

1. The Housekeeper's Food Guide.
2. The Cook Book Holder.
3. The Metal 50-lb. Flour Bin.
4. The Wonderful Shaker Sifter.
5. The Metal Linen Drawer.
6. The Emergency Shelf.

There are forty special conveniences in the new Hoosier—many of them labeled. Note the following:—

- (7) The new bill file is a complete book-keeping system for most households. Most women dislike book-keeping, but this simple book file for meat and grocery bills, on the upper middle door shows exactly which bills have been paid and which have not. With it you can keep a complete, simple record of all your money transactions.
- (8) The "Money tray" on the upper right door is divided into three compartments. One is labeled "change," one "milk tickets," one "miscellaneous." You can keep all your milk or bread checks here and the small change you need for daily bills. This will save you many trips for your pocketbook.

Have you heard about the Experimental Room in the Hoosier factory where every Modern Kitchen Improvement is tested? Do you know that every one that passes the test is built into the Hoosier?

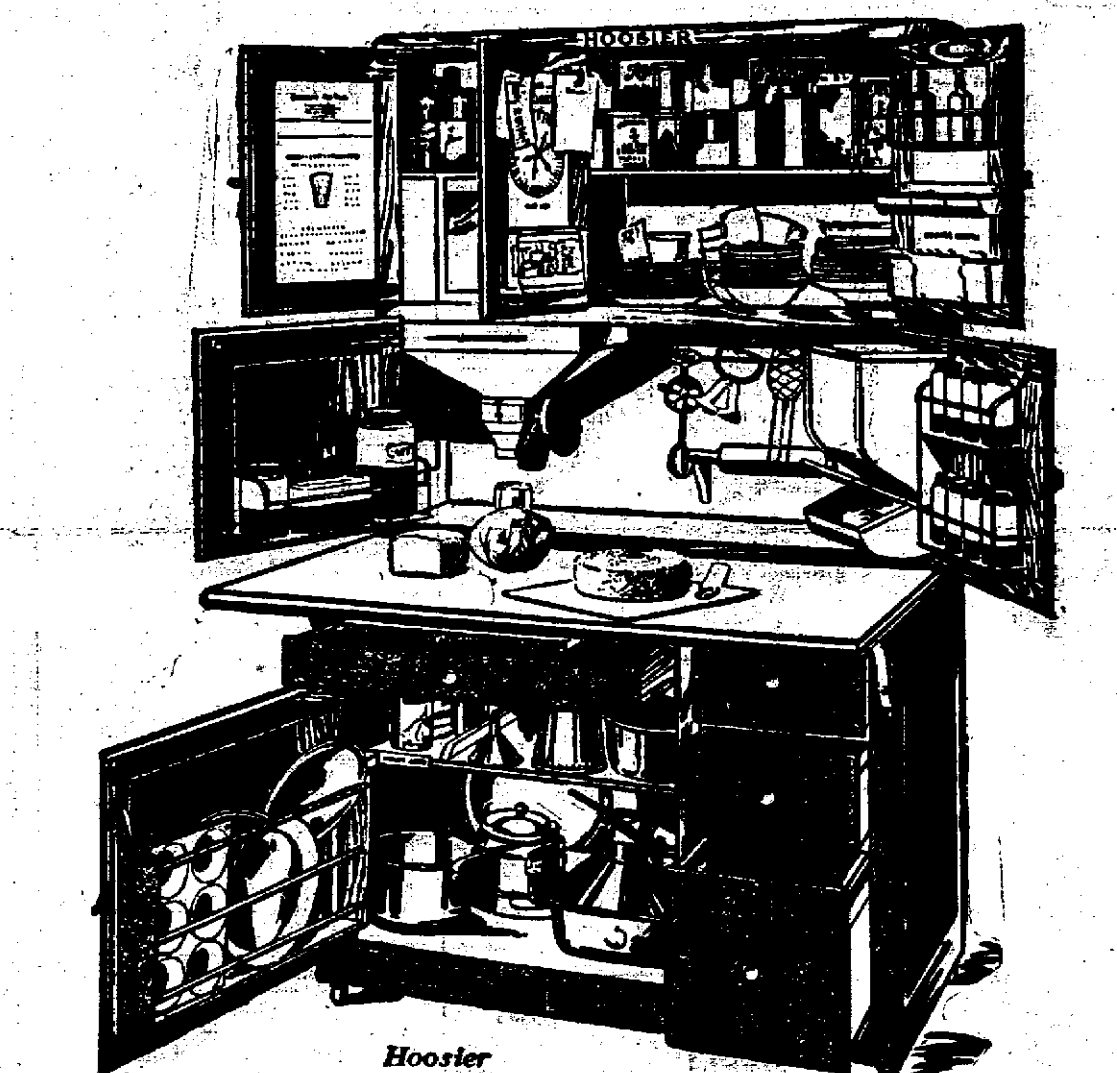

- (9) Eight crystal glass spice jars with air-tight screw lids are a part of the regular Hoosier equipment. Notice their wide mouths, especially made to admit a spoon. Four have patented sifter tops that are air-tight except when in use. Notice particularly that they are located at the very finger tips of your right hand.

- (10) A new condiment cupboard, specially fitted in above the flour bin, holds twelve bottles of ketchup, vinegar, salad dressing, etc., which can be so placed that you need not move one to get the other.

See Our Window

- (11) The table top of an improved sanitary metal slides out 16 inches beyond the base, so you can sit down at work. It locks automatically so you cannot drop it on your toes. There is not a corner anywhere that is not easy to keep clean. Most important of all, we guarantee this table will never warp.
- (12) The big pocket for the lids and pans on the lower cupboard door is ready whenever you need it. You can get the pan or lid you need without stooping.

NOW DON'T WAIT TOO LONG. Remember, the chances are you need this new Hoosier in your kitchen. Its tested conveniences are a remarkable help in almost every kitchen. To decide fairly whether or not you do need it, you should examine it personally tomorrow. For tomorrow may be your last chance to have one of these New Hoosiers delivered on the Hoosier plan.

Why Not Decide This Tomorrow—Once for All?

1. Do you want this NEW HOOSIER put into your Home, NOW for only \$1.00?
2. Or will you wait and miss the benefits of the liberal HOOSIER PLAN?

No matter what your income—whether your husband makes \$500 a year or \$5,000, this new Hoosier Cabinet can help you so much in your kitchen work that purchasing it now will be a big economy.

It Saves Steps It Saves Time It Saves Money It Saves Good Looks

The end of this great opportunity may come sooner than we expected. Scores have stood in front of our window and admired "White Beauty" shown there. Many have already enrolled on the HOOSIER PLAN, which is as follows:

1. \$1 puts the Hoosier you select in your home.
2. \$1 weekly quickly pays for it.
3. The Low Cash Price fixed by the factory prevails strictly.

A factory representative will be here for the remaining 5 club days and will be pleased to explain the cabinet to you.

This club is limited to only 25 persons, and positively will not be continued after this week.

An Expert Demonstrator From The Factory Has Charge Of This Exhibit.

The Best at Any Price

No other baking powder will raise nicer, lighter biscuits, cakes and pastry, none is more pure and wholesome

Then Why Pay More?

Costly British Sport. An expert has calculated that, including the personal expenses connected with the game incurred by the hundreds of thousands of amateurs, and by the wealthy professional clubs, together with the interest paid on shares and the gate money of the millions of spectators, British football costs about seven millions of money annually.

Another Satisfied Customer

"We have a new hired man," said Mrs. (shall we say) Binker? to her neighbor, Mrs. Greene. "A new hired man is no curiosity, but as Jack ran an ad for a man in our home paper, specifying just what kind of a man he desired, this man is rather unusual."

"Last year I had to go out in the field with Jack, as he could get no help. When he started to tell me what kind of a man he wanted this season, I reminded him of the trouble he had in even getting a specimen of the male sex last year and suggested to him that he take what he could get and be thankful. You see I was looking out for myself; did not want to go out in the field."

"Jack looked at me with a look that I have grown to know." "You don't fuss, girl," he said. "I am going to advertise for a man. Watch me."

"I was skeptical, but I managed to keep still. He advertised, and if I had not been home and answered the phone, I'd not have believed Jack had told me the answers he received. He ran rather a lengthy ad, telling about the work; the kind of a man he wanted. He got help, that to hear him tell it, should almost be in a glass cage, marked "exhibit, A," so full of good traits is he.

"Jack is satisfied, I am happy; no more field work for me when I want to be sewing for the children. I am a strong advocate of the want ad page, from now on. Well? Are you?"
